EAGLE RESEARCH CORPORATION®
FIELD TO FRONT OFFICE SOLUTIONS

MIDSTREAM PRODUCTS

The Midstream industry segment is the pipelines joining Upstream and Downstream. Eagle Research offers a full line of devices for the Midstream market. ERC's products are designed for accuracy and ease of use for storage, gathering, custody transfer, flow and pressure control. ERC offers multiple power options, enclosure sizes, and types of measurement to meet application needs.

EAGLE RESEARCH CORPORATION®
4 YEAR WARRANTY
MADE IN THE U.S.A.

E-SERIES®

EFM - Flow Meter
- Integrated Multi-Variable Transmitter (Uni & Bi-Directional Flow Ready)
- Multi-Meter Run Capable
- Connectivity to GC's, Analyzers via Serial or Ethernet Connectivity
- Chart Replacement Versions Available

EPR - Pressure Recorder
- Circular Charting with Field Manager™
- Live Pressure & Temperature
- Multi Pressure Capable
- Battery, Solar, & UPS Options
- Small Footprint, including portable versions

RTU - Remote Terminal Unit
- Fully Programmable
- Access to Large Process Library & Pre-Configured Applications
- Support for Multiple Meter Runs & Control Schemes on One Platform
- Simple Start-up for Fast Return on Investment
- Expandability for large site and I/O requirements

Valve Controller
- Live System Pressure
- Multi Pressure Capable
- High Performance in Tough Environments
- Solar and UPS Options
- Live, Min/Max, and Historical Archiving
- Simple Start-up for Fast ROI
- Cross Platform Compatible & Programmable

Custom Panels
- Multi-Meter Run Capable
- Packaging Options Include Panels or Racks
- UL Approved 508 Panel Shop Fabrication
- Expansion Backplanes & Modules to Support Various External I/O Peripherals
- Measurement based on AGA & API standards
- Support for AGA Standards Including AGA-3, 5, 7, 8 (Detail & Gross Method 1 & 2) & NX-19
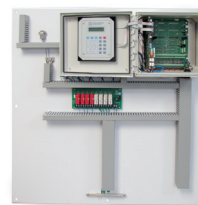

MPplus II SERIES®

MPM - Pressure Monitor
- Regulator Station Monitoring
- System Alarming for Pressure & Temp.
- Capture Pressure Profiles for Studies of System, Drops, and Drooping
- Circular Charting with Field Manager™
- High-Accuracy digital pressure transducer(s)
- Optional Low-Power cellular modem or other IoT connectivity
- Simple start-up for fast ROI

XA32/5™ RTU
- Multi-Meter Run Capable
- Packaging Options Include Panels/Racks
- UL Approved 508 Panel Shop Fabrication
- Expansion Backplanes & Modules to Support Various External I/O Peripherals
- Support for AGA Standards Including AGA-3, 5, 7, 8 (Detail & Gross Method 1 & 2) & NX-19
